Young Housing Professional Wins Place on Management Development Programme!

Clydebank Housing Association (CHA) is delighted to announce that their Maintenance Assistant, Raeann Rankine, was selected as the winner of the free place on Share's Management Development Programme.

Share is a leading provider of cutting-edge learning and development solutions for the housing and property sector. Share offered this sought after opportunity to one person within their Young Housing Professionals Network, with the young professionals having to complete an application for consideration.

Raeann's Manager, Jack Devlin, said, *"Starting in June, Raeann will undertake this development programme and will enjoy invaluable training that will no doubt help her own personal skills and career development while promoting CHA. There are many talented individuals who attend the Young Housing Professional Network so it is a huge achievement coming out on top. Congratulations!"*

A spokesperson for Share said, *"Share was delighted to have received an outstanding submission from Raeann Rankine for the sponsored place on the Management Development Programme, offered to one of our Young Housing Professionals following their first Conference, which took place in March. Raeann has demonstrated exceptional motivation, dedication, and ambition. These qualities shine through in both her application and her ongoing commitment to the Young Housing Professionals Network."*

Share continued, *"We are confident that this opportunity will support Raeann in further developing her skills, confidence, and sector knowledge, ultimately opening new doors, and helping to shape a successful and rewarding career in housing."*

Raeann was delighted to have been chosen for a place on the programme, stating, *"It feels like a real vote of confidence, and I'm excited to grow my skills, step further into leadership, and contribute more to the team and the organisation. I'm also grateful for the opportunity. It's a big step toward my long-term career goals."*

Notes to Editor: Background on Clydebank Housing Association...

As at 31 March 2025, our housing stock totalled 1,213 units including over 30 Shared Ownership units. In terms of size, we are currently the largest community-controlled Housing Association in West Dunbartonshire and we employ 35 staff. We factor over 600 properties. We are run by a Management Committee made up of mainly local volunteers. We own and manage a thriving local community centre, Centre81, and

have a wholly-owned subsidiary, CHA Power Ltd, which provides low-cost heat and hot water to over 380 2-bedroom homes and a local church.
